

These are all the mails exchanged by Non Serviam and BMR since we raised the problem :

Hello to all,

We are writing to you about a misunderstanding. We discovered (because someone told us), that Bad Moon Rising released this record: <https://badmoonrising.bandcamp.com/album/filthy-land-massacre> and this one: <https://badmoonrising.bandcamp.com/album/will-to-purification>

It seems quite clear to us that from an anti-fascist point of view, these records pose serious problems, the cover of the Nazis of Satanic Warmaster, the affiliation to the "Circle of the 4444 Reich", etc.

You (BMR) also release records of clearly antifascist and anarchist bands (not only us). So this question for Bad Moon rising: what the hell is going on?

Hi

I don't think Welkin and Filthyland is NS, both bands from Singapore and China, both talk about Chinese history, didn't support the the racial supremacy, fascist, or other far right wings idea.

If your guys worried about it, I can send your the original layout and materials from both bands, even the physical products, inside no swastika, black sun or something neo nazi symbols.

My past release have a lot RABM, and I familiar with who anti fascist, even in reality I'm close with the grindcore and crust scenes, bring some bands who anti fascist in Taiwan.

So when I get any new submission I always check the lyrics and what they want to say first. If someone told about both bands are NS, I think something misunderstand and I'm sorry have to discuss about this.

Either you are ignorant on the issue of fascism, nazism and the european extreme right which seems to inspire these bands, or you are taking us for fools.

We know that in countries under the domination and trauma of state communist parties like China, primary anti-communism can be used somewhat clumsily as a protest imagery, and it is easy to understand this, even when it is very clumsy and with certain limits, given that the word "communism" is no better there than under Stalin in the USSR. But this is not the subject here. NSBM is.

"Welkin" and its "Will To Purification" who covers the band Satanic Warmaster, which is known to promote antisemitism and even nazism. Really a shit-stick band.

And that other band presented as "New members of 4444 Reich" on the BMR page (what a shame!). Do you know what "Reich" means? You know that this 4444 Reich thing is a play on words around the third reich: the nazi regime? Who industrially exterminated millions of people and who allied themselves with the Japanese nationalists, who themselves have an unbelievable amount of blood on their hands. In this "4444 Reich" you can find only filthy, minimally right-wing, xenophobic, racist and sometimes openly NSBM bands.

But as the logo of these 4444 sons of bitches is a swastika, we will stop arguing about it because it doesn't seem necessary. And we don't want to dirty our eyes with the layout of a record of NSBM sympathizers, it will not prove any point. We discussed with Moon and what i already mentioned in this mail is more than enough for us to take a decision. So no, we did not misread, we are not going too fast. It is you who has a problem here, and we with you.

BMR's bandcamp banner contains a circled A, that is the symbol of anarchism. Anarchists throughout history, whether here in France, Germany, Spain, Italy, etc. but also in Asia, in Japan, in China have fought against reactionary and nationalistic forces with internationalist perspectives that we also carry. It is disgraceful to let all this cohabit together on your label and we do not wish to participate in this confusionist masquerade. I myself am an anarchist and I have fought all my life against these shitty ideologies that have done so much harm to the whole of humanity, I take these matters very seriously, so for me all this is absolutely unacceptable.

We are no longer able to guarantee that your label is antifascist, and this is for us a clear reason to break up.

As such, we would like you to remove Vol.1 of the split with Gallkrist from your bandcamp page, and not to add Vol.2. Also we don't want you to release the cassette version of the split as we had planned before we became aware of these elements. All of this is disappointing.

Dan and Vivian, I'm sorry if you find our methods brutal. We would like to have your opinion on all this, because it is, I think, not only up to Non Serviam, but also to Gallkrist and Trepsec to take a decision.

Void, for Non Serviam.

If you think so, I can do nothing about it
